Question: Please use this space to make any comments you would like regarding your instructor.

Response

I hated the way he reached the class. Worst history class I have ever taken and I will never recommend this teacher to anyone, I will tell them to pick someone else. Too much reading and essay writing it felt more like an English class and I did not like this.

Professor Pegoda, The class is great and very entertaining. I have always presumed classes to be boring, but your class is quite the opposite. I have learned a wide variety of topics without getting bored and the topics I learned were quite fun and interactive. Now I have a different mindset of how to perceive future history classes. I hope that the future history classes are as informative and fun to experience just like your current class today.

My instructor is always accessible, gives interesting assignments, and helps guide us in our research and pushes us to do our best.

Professor Pegoda is an amazing teacher who is easy to understand and makes class interesting.

Give the Mr. Pegoda a full time position here at ACC! He brings so much to the table. He is active in so many areas and makes the school a better institution. Always available, willing to teach a variety of subjects, and very unique perspective on things. Great professor.

Overall it was an amazing class! I loved the discussion based set-up. Professor Pegoda allowed frank and open discussions on what can be sensitive subjects. This is my 2nd class with him and I highly recommend his classes to other students.

Professor Pegoda was a great instructor this semester, he had everything prepared on time, and was always eager for us to learn.

Although the professor is very nice & good at working with students and being understanding of personal events that impede an assignment being completed on time or any difficulty with understanding the course or assigned material, I felt extremely offended on several different occasions while being a student in this class based on the beliefs expressed by this instructor and how he seemed to very subtly at first, be trying to sway our way of thinking when it comes to major topics of importance such as race, religion, & sexual preference (LGBT was often a topic of discussion, as were repeated invitations to join this club). I am fine with being invited to participate in a club or group such as this but I am not OK with being made to feel like my beliefs are any more or less valued than that of my instructor or any others in the class. Or that the way I've been brought up is narrow minded, wrong, or anything of the like. Especially while coming to the realization that this professor is not only using this course

Mr. Pegoda was amazing! I want to thank him for all the things he taught us. Made me look at the world differently and appreciate things in life.
